

RAPIDS™

Risk Adjustment Payment
Integrity Determination System

RAPIDS

Risk Adjustment Payment Integrity Determination System (RAPIDS)™ delivers automated medical record documentation evaluation and HCC analytic results enabling actionable insights into required program calibrations for continuous improvement and risk optimization.

RAPIDS™ provides medical record retrieval and evaluation through cloud-hosted software as a service. RAPIDS™ makes use of a variety of cutting-edge technologies to provide payors with an automated tool for assessing patient risk based on documented medical conditions.

RAPIDS™ can address compliance vulnerabilities and significantly reduce the burden on health plans and providers by leveraging advanced technologies for the retrieval and evaluation of medical records.
