

QVIEW FROM ACCESSDATA®

FROM THE CLOUD TO THE GROUND AND BACK AGAIN!

Introducing QView for untethered document review.

Imagine document review untethered—out of the cloud and onto your laptop for anywhere, anytime access to vital documents. Powered by the same lightning-fast viewer technology used in our industry-leading FTK® software, QView delivers a fluid and fast document review experience—even offline.

Created to be a simple but powerful desktop viewer for Quin-C™, our breakthrough digital investigation platform, QView has quickly become an essential investigative tool that stands on its own—literally.

Blazing-fast document review— anywhere, anytime

Delivering a seamless review experience that almost instantly renders documents in native or near-native form, QView lets you download data directly to your machine and review vital documents locally and offline—simply and securely. Then synch to the database again when you're back online.

Speed investigation and maximize your resources

An incredibly versatile and intuitive document viewer, QView delivers:

- Anytime, anywhere document review—even offline
- The fastest, most flexible review experience
- Intuitive interface mastered in minutes by even nontechnical users
- Robust tool set (document navigation, labeling and metadata) capable of handling any standard review

With document review untethered, the possibilities are endlessly adaptable to the needs of your organization.

Examine Documents from Anywhere

Download data directly to your device and review vital documents quickly, simply and securely, without Internet access. Then seamlessly synch any changes to the database when you're back online, so as to not lose any notes, tagging or coding.

Experience Unmatched Speed, Ease and Utility

Get the fastest, most flexible review, featuring a full complement of tools—more than capable of handling any standard digital investigation.

View Large Files and Multimedia with Ease

QView is designed specifically for large files and multimedia. View a 500MB PDF with over 50,000 pages in seconds. Or watch a gigabyte movie and multimedia files without waiting to download or stream data.

Empower Any Reviewer or Investigator

Even the greenest or most nontechnical investigator can be up and reviewing with minimal training—saving significant time and maximizing the output of your entire team.
