Bug Fixes

- Push notifications weren't working on some devices. That's been fixed so now you won't miss notifications that your tacos are arriving.
- Fixed & updated styling on sign-up and other assorted places. We've appeased our designers... for now.
- Made some sweet (some may call epic) under-the-hood improvements. Sometimes the best things [more](#)

Horrible customer service and response ti...

I have had many issues with this app. Most recently they have cancelled my whole order for one thing not being available. This is after already waiting for over 15 minutes and [more](#)

So far, so awesome

After the last several times of Grubhub screwing up my orders I decided to try Favor even though it's ostensibly a little more expensive. (Pro tip: order food from the [more](#)
