

What can I have delivered with Favor?

Almost anything! We deliver food from your favorite restaurants, dry cleaning, prescriptions, clothing, groceries, and more!

How does Favor work?

Go to favordelivery.com or [download the Favor app](#) to browse popular nearby restaurants and stores, or tap the 'search' icon to order from any store within your delivery zone. You can add items from our menus or type in custom orders.

After you order your Favor, it is assigned to one of our Runners, who will complete your delivery. Runners act as your personal assistant that you can text throughout entire delivery, so if you decide you need to make any changes, text your Runner to let them know.

You can track your delivery and pay directly through favordelivery.com or the Favor app. All payment information is saved securely so you only need to enter it once.
