We offer live chat when you need it or email support when you can wait.

How secure is Persona?

How do I save a website login to Persona?

I have more than 25 logins. What happens now?

# How we Keep you Safe

End-to-end data encryption.

Industry standard AES-256 bit

encryption with 256 bit keys  
hardened with PBKDF2  
HMAC-SHA256.

Traffic is transmitted through  
a robust TLS 1.2 and TLS 1.3  
protocol.

Data locally encrypted before  
it is sent to our server.

# Take back control of your identity.

Coming soon to our next product launch.

## Automatic Password Rotation

We'll update your passwords for you when they've been involved in a breach or need some love.

## Quick Signup

Easily signup for a new online account without the hassle of filling out another form.

## Advanced Autofill

Easily insert your name, credit card, address, phone number or email address into any website form.

## Control is Understanding

Gain control of your identity by knowing which companies have access to your personal information.

## Passwordless Authentication

## Share Access without

**Authentication**

Use your phone to log in to your Persona account without a password.

**Without**

## Sharing Passwords

Grant someone temporary access to an online account without giving them your password.

# Simplify Your Life

We believe that innovative technology should be affordable. What's the point of making something great if no one can use it? The best price, for the best product.

## Free

Save up to 25 logins.
