**Wow!!!**

This is such a great app!! I am really happy with it. Everything run perfectly, and everything does well!! Is has all the songs in the universe plus more included (unlike Tik Tok which only has popular songs) and has all that is included in the videos it showed you for a small fee! You can transfer your videos to Tik Tok or Instagram, or you can just save them to videos! I would suggest this app to anyone who loves music, video making, and everything else awesome!!!

## Update:

I now got this app on my iPad, and now the popular songs aren't available and I can't search up songs anymore! I really disappointed and wondering if this app was only intended for phone. Now, I would give it a 3 rating but I don't want to change my original. My phone broke down so I was really looking forward to using some of my new favorite songs on my new iPad. Then I found out I couldn't search up songs anymore and was devastated because it was something I was really looking forward to. It still had the same problem after downloading and redownloading again. I thought that I could rely on this app but I guess not.

**Im ONLY rating this a 5 star so everyon**

There's TOO MANY ads like I get the ads part but one pops up every minute. I would understand if it was every 15 or 20 minutes or just take them all out!!! I was editing a tik tok too many ads so I got video star. (follow ava.páige) and I was making a video for tik tok I was recording and an ad pops up and I had to restart the WHOLE thing! It makes me mad there is to many ads. I was REALLY excited about this app to. But that ain't all. There are hardly ANY effects,particles, and filters people without the pro version can use. It makes me mad because people don't want to pay 20 bucks a year. They could be saving. Anyway please fix the ads and make it to where there are MORE things people without the pro version can use. Thank you.

I love this app one thing I wish I could change is the whole pro thing like I just want to make a really good video. But I can't because I don't want to have to spend money to do that. Everyone thanks about how great this app is I just wish I could see what it was. I really hope you can't make some stuff free just by watching one add. Please take this into consideration or else this review will be a wast of time. If you can also not have prices and show a few more adds that would be amazing. It would work because you could be paired to show adds and not take money from the people who download the app. I only got this because I saw my fave tik tok star advertising this app. I went to the app and quickly Realized that you have to pay to remove the watermark after the one free time you get it off. You also have to pay for pro and filters and effects. Like that's an outrage for me. PLEASE take into CONSIDERATION.
