# CLUB eWheels BOOSTER

The world's first ever powered wheels that converts any pushcart into a remote-controlled motorized electric golf caddy. Have your bag accompany you rather than hinder your enjoyment of the game. Many say walking is better than riding, but there's no need to carry your bag. With the Club Booster eWheels, all your golf equipment will always be in the right place.

It doesn't negatively impact your performance. Get around the course quicker and easier with less effort. Perfect for hilly golf courses and on those with downhill inclines.

### WHAT PEOPLE SAY

*"It has given me back my life on the course."*

— Rob Jacobus, early tester
