#### General information

NoodleZero meal has KonjacMannan as its effective component that is the best soluble dietary fibre from nature. People will not easily feel hungry after having dietary fibre with low Calorie and low carb diet absorb. There is only less than 100 Cal per meal of NoodleZero.

The purpose of diet can be achieved when the Calorie and carbohydrate absorbed is lower than the Calorie and carbohydrate consumed. However, the best part of NoodleZero is to help you to diet and make you feel full at the same time, and meanwhile the tasty flavours of NoodleZero will impress you the most.

Having one NoodleZero to replace the dinner is highly recommended. And this will help you reduce 2500 Calorie absorbed within one week. As a result of this calorie management, your body weight can be reduced averagely 4kg every month.

For getting the best result, Combos are scientifically formulated by our Dietitians, which would contribute to 104000 Cal loss per month. Follow our monthly plan, consuming the combo within one month, You can have 5 days diet per week and enjoy the rest 2 days as your cheat days.

Let's Enjoy the healthy diet just starting from now!
