Black oxide stainless steel #6 nib, made in Germany by Joffe and engraved with the Goulet Pens "GP" ink splatter logo. This nib will fit most fountain pens that accept a #6 size nib; feed and housing not included.

The nib color may vary from a dark gunmetal grey color to a black color. It's subtle across nibs, but we wanted to let you know. This variation is to be expected for the time being. We won't be able to accommodate any particular requests for a shade of black.

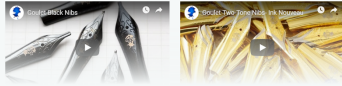

We are unable to install our nibs on any pens when you order. We're authorized dealers for all the products we carry, and changing out parts of a pen with another brand's nib (even our own) voids the warranty on that pen. You will need to do this yourself, though you can reference our video or email us if you have any questions about it.
