BuzzFeed has it all: the stories and quizzes trending on social, the news you want now, and the recipes and life tips you didn't know you needed.

FEATURES:

- Never be bored again with the best mix of News, Videos, Quizzes, and Lists
- Watch your favorite BuzzFeed shows like Tasty, Nifty, Goodful, Try Guys, Violet, and Ladylike
- Use the Explore tab to dive into your favorite topics like Food, Celebrity, Animals, DIY, LGBT, and more
- Use the Trending section to see what stories are about to go viral
- One tap to share stories with Email, Messages, Facebook, Twitter, Pinterest and more
- Share individual images and videos from within stories. Just tap the image for options!
- Bookmark posts you want to come back to and sync them with all your devices
- Get push notifications for trending stories so you're always in the loop
- Comment on a post or click the reaction button to share your opinion

If you have any trouble with your app please email us at support@buzzfeed.com so we can help!

And don't forget to check out BuzzFeed.com when you're on your laptop!

Note: Our properties may also feature Nielsen's proprietary measurement software which may contribute to market research, like Nielsen's TV Ratings. Nielsen's software may collect your choices with regards to it.

What's New

Version 5.73

We're still working on rolling out design changes, including making it easier to get to comments!

Also in this release:

- Tapping links within an article opens a new article more quickly
- Better support for Quizzes with images
