LIGHTBOX | About

Located in the heart of Manhattan, Lightbox is an experiential events venue. With our 360-degree projection technology and blank, 4,000 sq ft canvas, clients can project their content onto the space to create a completely immersive environment.

With a dedicated events team working on tech production, dining and hospitality, and streamlining the event-planning process, the event is covered from every angle.

LIGHTBOX | Background

Starting from a converted industrial garage in Midtown Manhattan, Lightbox launched in 2013. Since then, we have worked with over 250 companies to create unique and dynamic experiences.

In Fall 2017, we built and re-designed a new, multi-level, state-of-the-art venue. In our new home, we continually bring ideas to life as a leading digital destination for interactive events.

LIGHTBOX | Leadership

At 19 years old, Daphné Jouanneteau moved from her hometown in France to New York City to help start Lightbox.

In 2016, she took over and officially became CEO of the company, propelling Lightbox into the multi-million dollar business that it is today.

"I see experiential marketing and digital art as two fields with enormous potential, and I know that Lightbox is the perfect space to celebrate them both."

-Daphné Jouanneteau

LIGHTBOX | Mission

We believe in memorable experiences that go beyond a trendy photo-op.

Our mission is to provide a one-of-a-kind digital destination that transcends traditional event experiences, where brands can create inspiring moments at the intersection of art and technology.

LIGHTBOX

Capabilities

LIGHTBOX | Technology

Lightbox is a venue equipped with multi-level, state-of-the-art sound and lighting systems, HD projection mapping technology, and other customizable, digital features.

Our 360-degree digital stage provides the perfect canvas for brands to capture their guests' attention.

LIGHTBOX | Production

Our team of event specialists is devoted to working with our clients on every single detail along each planning and execution phase.

Everything from presentation design, lighting, signage, furniture, and decor is carefully thought out and executed seamlessly.

LIGHTBOX | Hospitality

By studying the science of catering to large groups of people and analyzing a variety of palates and dietary preferences, the Lightbox hospitality team offers a full-service, premium food and beverage program.

Our chef-curated culinary program features carefully planned breakfast, lunch, and dinner experiences, cocktail parties, mixology tastings and more.
