RESPIRATORY PRODUCTS

Premier Medical Corporation is a leader in respiratory therapy services. In conjunction with our attention to quality services, we offer a wide range of respiratory products from concentrators to liquid oxygen to CPAPs and BIPAPs.

OXYGEN CONCENTRATOR

We provide compact, quiet, and power-efficient oxygen concentrators that deliver oxygen flow rates up to 5 liters per minute. We carry a range of the industry's most trusted makes and models.

OXYGEN CONCENTRATOR 10L

A high flow concentrator is designed for anyone who requires oxygen flow rates up to 10 liters per minute.

OXYGEN CONCENTRATOR TRAVEL

This battery operated oxygen concentrator is designed for travel use. It plugs directly into a home outlet, car lighter outlet and even works while flying. It comes with a battery and can supply oxygen up to 6 liters per minute in pulse or continuous modes.

OXYGEN CYLINDERS

Economical, lightweight aluminum oxygen cylinders feature a corrosion resistant interior and are up to 40% lighter than a steel oxygen cylinder. We carry a variety of sizes including: M-6, C, D, E, M and H. There are also carrying bags and cylinder racks available for transportation and storage options.

OXYGEN CYLINDER RACK

An oxygen cylinder rack can be provided for safe and secure storage of oxygen cylinders. This unit is available for a variety of cylinder sizes including: M-6, C, D, and E. We offer 6, 12, 24 and 48 chamber cylinder racks.

OXYGEN CYLINDER BAG SHOULDER

This shoulder bag is designed for secure manual transportation of oxygen cylinders. It is lightweight and comes with a shoulder strap for comfort. Available for cylinder sizes C, D, and M-6.

SELF CARE AND PATIENT AID PRODUCTS

Premier Medical Corporation is committed to provide durable medical equipment to enable the highest possible quality of life for our patients. These items include commodes, patient lifts, bathroom safety aids and patient suction needs.

SHOWER BENCH

A shower bench provides added patient safety while showering. Patients can sit while in the shower in order to minimize the risk of injury due to slipping. This unit also comes without a back if desired.

TRANSFER BENCH

The transfer bench is designed to aid in transferring a patient from outside the bathing area to inside the bathing area, without the risk of falling due to climbing over the bathtub wall.

COMMODOE

Commodes have an aluminium frame and 16" wide seating space provide the stability patients desire. Supports up to 300 lbs.

COMMODOE EXTRA WIDE

An extra wide commode presents a 28" wide seating space for patients who require a more spacious sitting platform. Supports up to 400 lbs.

COMMODOE BARIATRIC

A bariatric commode presents a 28" wide seating space for bariatric patients who require a stronger frame. Supports up to 650 lbs.

COMMODOE DROP ARM

A drop arm commode accommodates transfers in restricted or confined areas. Easy to operate drop-arm: the user simply pushes the lever to release the arm, or lifts the lever to lock it in the upright position.
