HOW MONEY WORKS

When it comes to finances, how much do you know? If you're like most people, you probably know little about personal finance. Don't worry if you don't, you're not alone! Personal finance isn't taught in school and even people with a degree in finance often know nothing about the basic principles.

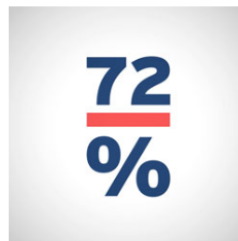

When it comes to reaching your financial goals, a little knowledge can go a long way. Even if you think long-term security is impossible on your income, if you apply these basic concepts to your financial choices, you may be surprised at how far you can make your money go!

THE JOURNEY

OUR OPPORTUNITY

We all begin life's journey at Point A. Most of us have hopes and dreams that define Point B, but it isn't long before we realize there are barriers and challenges to reaching our goals. In fact, all too often, life gets in the way. We get laid off, we rack up debt, we face illness, we discover we don't have the right education or know the "right people" to keep our families on track for our goals and dreams... and that dream slowly becomes the great disappointment.

But what if you could hit the reset button? What if you could find a great company with the right opportunity – with the system, the tools and the training to build a successful business of your own – a business you can build part time or full time?* What if there was a place where arriving at Point B could be so much better than you ever imagined?

It's time to consider the Primerica Opportunity.

*In Canada, the part-time opportunity may be subject to certain restrictions, depending on your occupation.
