

Bright 'N Tight™ Carolina Laurel

Prunus caroliniana 'Monus'
Sku #6700

[1 Review](#)

An outstanding compact, broadleaf shrub valued as an evergreen hedge or screen. Exceptionally handsome, shiny, deep green foliage has a tidy, clean appearance. Adapts well to occasional pruning to control size and form. Showy clusters of white flowers appear in spring.

Light Needs **Partial to full sun**

Water Needs **Water regularly - weekly, or more often in extreme heat.**

Blooms:	Spring
Flower color:	White
Flower attributes	Fragrant , Showy Flowers
Garden style	Contemporary
Design Ideas	This large broadleaf foliage shrub is the ideal background plant with a dozen uses. It's primary value is as a hedge reaching tall enough to provide a solid privacy barrier. Density of foliage makes this also suited for windbreaks. A problem solving sound attenuation and as a visual screen for front yards that reclaim public space and block out traffic noise. One of the best shrubs for screening off neighboring houses and unsightly land uses. Adaptability to shearing makes this an outstanding formal foliage plant pruned into cone or columnar shapes as well as the standard rectangular forms of hedges.
Companion Plants	Crape Myrtle (Lagerstroemia); Japanese Cedar(Cryptomeria); Coneflower (Echinacea); Indian Hawthorn (Raphiolepis); Lily of the Nile (Agapanthus)
