

PLATFORM

The world's most comprehensive conversational AI platform.

Abe AI's full-stack conversational platform gives developers and content authors a powerful engine to create personalized AI-powered dialogue.

See it for yourself.

CONVERSATE™ IS A FULL-STACK AI PLATFORM FOR FINANCIAL SERVICES

The most mature enterprise AI platform on the market

The Abe AI platform, Conversate™, optimizes for two roles in the development cycle of conversational AI: the engineer and the creative copy-writer. With these advanced developer tools any financial institution can create robust AI engagements.

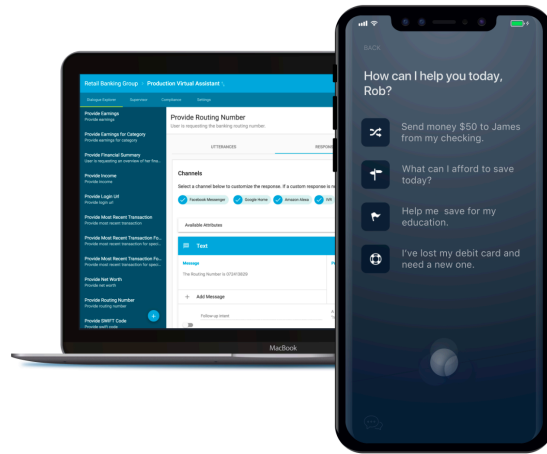

Proprietary NLP/NLU financially optimized

The multi-stage AI recognition engine allows Conversate™ to understand natural language ... even emoji.

Innovation: The Abe AI NLP/NLU experts have spent the last few years digging into one problem: "How to create an incredible customer experience through AI in a retail banking ecosystem."

Conversational: Go beyond understand what phrases mean and start having a natural conversation with your financial institution, at scale, with AI-powered virtual assistants.

Intent Creation & Training

Simple intent training gives developers and content authors the ability to create & maintain intents with ease.

Simple Builder: Quickly build intents which map to the tasks or skills the AI can handle.

User Friendly: Simple training interfaces any content author can adjust as no knowledge of machine learning is required.

Robust Developer Tools

Conversate creates a clear separation for developers and content authors.

Familiar Workflows: Get started quickly with developer workflows familiar to any engineer. They will be creating complex conversational banking interactions in no time...with your APIs.

Integration SDKs: Connecting to internal or external APIs has never been easier with the Conversate™ SDK.

```
22 //...
23
24 return BankAPI.sendPayment()
25     .then(payment => {
26
27         if (payment.success === true) {
28             return {
29                 whichScenario: 'successfulP2P',
30             };
31         } else {
32             return {
33                 whichScenario: 'failedP2P',
34             };
35         }
36     });
37 //...
38
39
```

Seeing the conversational capabilities of the Abe AI platform is incredible. Not all AIs are created equal and the Conversate™ platform gives any financial institution a serious competitive advantage.
