### FANTASTIC PRODUCT, AMAZING SMELL

Let me start by saying I'm sensitive to aftershaves and cologne. This is one of the first products that doesn't give me headaches and smells amazing all day. I had no less than five different people at the office ask me what I was wearing. It's all natural, it doesn't sting the skin. It's makes my beard glow. This stuff is so fantastic and "clean" smelling without offending that I use a little on the back of my neck after the shower as well. It gives my beard a great glow. Seriously I've found my new favorite bathroom product. My wife loves the smell, and she generally hates all cologne. Only downside is people will constantly ask why you smell so good, and constantly be sniffing you.
