

Solution

Luminate™

Intelligent Fraud Management Platform

Contact Us

Anticipating fraud requires a multi-dimensional approach

Using multiple fraud point solutions is overly complex and difficult to manage

The right solution provides a holistic view of fraud risk, correlated across a growing # of channels

Maximize Efficiency

Leverage existing data / investments to orchestrate, connect and augment what you already have.

Catch Fraud

Harness the power of machine learning and artificial intelligence to manage fraud decisions

Improve Consumer Experience

Simplify, clarify and speed identity authentication and verification for reduced friction

The Luminate Solution

Simplified, Yet Configurable

- Cloud-based, with easy one-API integration
- Digital machine learning model
- Delivers one risk score, risk codes and decision output
- Your own purpose-built data lake
- Configurable rules, queues, decision strategy and user interface
- Standard dashboard with key fraud metrics

Six Fundamental Truths About
Fraud
