## Product description

Size: **0.9 Ounce**

Making the world a sweeter place. SweetLeaf is the award-winning stevia brand with zero calories, zero carbs, a non-glycemic response, and NO artificial sweeteners. That's why it is the most popular stevia brand in the natural foods marketplace. SweetLeaf Stevia Sweetener was the first stevia sweetener to receive GRAS status from the FDA and is the only stevia sweetener to win twenty-five international awards for taste, innovation, and sustainability. From the beginning, SweetLeaf Stevia Sweetener made consumer well-being its number one priority. SweetLeaf products are and continue to be a great alternative for people with diabetes and special nutritional needs. We are committed to providing consumers with the highest-quality, best-tasting stevia sweeteners.

#### Sweet, Natural, Organic - Thank you!

Reviewed in the United States on May 19, 2017

Size: 0.9 Ounce [Verified Purchase](#)

Excellent product! Be advised the bottle is not filled to the top. Why Sweet Leaf has this in a much larger container than necessary is beyond me, but you're not being shorted product, it's just how they package it. ( It's the same at the health food stores I see it at) Anyway, it's one of the best Stevia products on the market - Do your research & you'll see. This is stated to be 100% pure stevia leaf extract with a minimum 90% steviosides. Again, do your research. People complain about an "after-taste", but you don't have an after-taste if you use the proper amount. A very little goes a long way with this stuff - Less is more!

#### Container barely has anything in it.

Reviewed in the United States on March 29, 2018

It's ridiculously expensive for the tiny amount you get . The package is only about a third full. I thought I had gotten one that slipped through QC so Amazon replaced it, and the second one is also only about a third full. There's hardly anything in the container. It's a tremendous waste of plastic.

#### My go to all day long!

Reviewed in the United States on December 8, 2019

Size: 0.9 Ounce [Verified Purchase](#)

I use this all day long in nearly everything I eat and drink. I have for many years. Some stevias are not as pleasant. If you never used stevia before you may find it bitter. The only thing about baking is that food will not brown like with other sugars. Yet this natural stevia is very safe and satisfying for those who need to avoid other sweeteners. Even if some artificial may be a bit more pleasant at first...I would use this stevia any day because of the health benefits. I use it in even ground meat dishes to make meals more like sloppy joes or Chinese sweet dishes. When I make ice cream, I always use xylitol also however for the consistency. I use the stevia but add the xylitol. You may want to do this for baking also (use it partially instead of completely) so items brown better. My health is very compromised and I all allergic nearly to everything...yet I can use stevia all day long without problems. It is also great in drinks..hot and cold.

**One of the Best on the Market.**

Reviewed in the United States on March 27, 2019

Size: 0.9 Ounce [Verified Purchase](#)

Why is this better than many Stevia Extracts on the market? The word is purity. There are no additives or fillers some of which are less than safe. From my point of view, some fillers, such as dextrose, sucralose (and some other fillers ending in ~lose~), simply dilute the product and give you less bang for your buck. I have found nothing negative about "Inulin" so do what you will there. Erythritol appears to be sweetener unto itself that is safe. While this item has served me well, I have no reason to change. There are now other "pure" products available so read the labels and avoid anything with "fillers" that you do not know or understand. There are a number of liquid form stevia products on the market. I see those as watered down products which again offers you little bang for your buck.

**Best stevia product on the market**

Reviewed in the United States on June 9, 2016

Size: 0.9 Ounce [Verified Purchase](#)

This particular product is definitely the sweetest most potent Stevia on the market. I don't mean this "brand," I'm saying this particular product. Sweetleaf makes many different stevia products and they all have different potencies of extract from the plant. This one product has the highest potency and isn't cut down with a bunch of fillers like many other stevia's on the market, including other stevia products manufactured by this company Sweetleaf.

You will use much less of this one because it is stronger and therefore sweeter with a more pure sweet without the additional flavors of any fillers mixed with it. I use one teaspoon to sweeten an entire 2 quart pitcher of iced tea. It lasts so much longer making it a better bargain in the long run. This one is the best.

Don't let the size vs price of this bottle deter you from purchasing. I have been using Sweetleaf Stevia for 20 years. This bottle of Stevia is the most concentrated I purchase. I use this bottle almost daily and it lasts months. I usually purchase about 3 a year and its all I need of it. Admittedly, I also use flavored liquid Stevias in my drinks as well so its not the only Stevia I use. I do however, use this bottle about once a day and it still lasts for months.

Very little product in container meaning it's quite expensive for what you receive. Taste is good....not great but the best I've found so far. Trying to find replacement item for the Kal product that I loved but they contaminated with corn starch and jacked up price. Will keep looking. If they added more of the product in the container, it would be a possible contender.

Reviewed in the United States on May 15, 2019

I purchased another brand on Amazon and while the product is great, the lid flap was flimsy and broke. I received this item and it came with a very sturdy 2 sided lid so I carefully poured the remainder of my other Stevia into this jar. They both taste the same and you just need the tiniest, TINY bit to sweeten anything you want. I'm done with artificial sweeteners. This actually taste better than sugar!
