Wellness Solutions

More than an emergency button — our Wellness solution is an always-on safety net.

Post Alarm Systems Wellness offers a secure and cost-effective option for independent living with safety, security and comfort.

Activity Patterns

Understand your family member's activity pattern, and get an alert if it's out of the ordinary.

Security & Automation

Simplify daily routines with automated temperature, light and security settings.

Alerts

Be alerted if your loved one is wandering or leaving the house at odd hours.

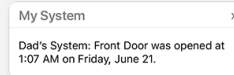

Awareness

Making sure your loved one is getting up and about.

Pendant Integration

Wellness can also be paired with Personal Emergency Response (PERS) pendants.

Peace of Mind with Monitoring & Alerts

Know if Mom got out of bed this morning.
See if Dad left the house for his morning walk.
Receive a notification if Grandma misses her medication.
Family members and caregivers can monitor their loved-one's activity, such as how much time is spent in bed, in a favorite chair or out of the house. And, with intelligent sensors to track and learn the home's activities of daily living, Wellness can identify anomalies that may signify a problem.

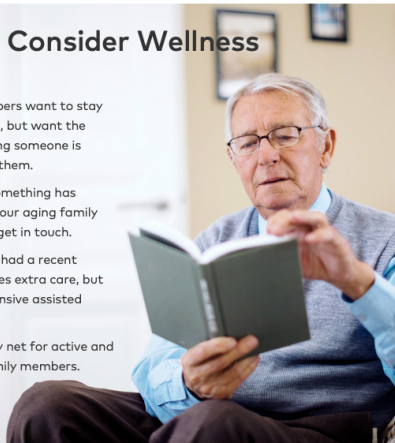

Watch Our Video

Learn how our Wellness solution can keep your loved ones safer.

When To Consider Wellness

- Your family members want to stay home as they age, but want the security of knowing someone is watching out for them.
- You worry that something has happened when your aging family member doesn't get in touch.
- A family member had a recent illness that requires extra care, but can't afford expensive assisted living.
- You want a safety net for active and healthy aging family members.

The Wellness Advantage

Compared to traditional panic pendants, our complete Wellness solution:

Wellness vs. Traditional Panic Pendants

- Sends alerts even when an alert button can't be pushed
- Delivers customized notifications and real-time updates
- Increases night-time safety with a wireless bed sensor
- Learns routines and sends alerts of unusual activity
