
It's time for always-on guidance and support

BlueStar, a digital health solution for people aged 18 years and older who have type 1 or type 2 diabetes, provides tailored guidance driven by artificial intelligence. Without waiting for a phone call or message from a privately employed coach, users get discrete, 24/7 coaching and support.

Digital Health Solutions for Informed Care

Digital Health Solutions for Informed Care Guidance

BlueStar collects and analyzes health data to provide precision, real-time feedback and intelligent coaching driven by more than blood glucose.

Holistic Support of Diabetes Care

We focus on six dimensions of chronic disease care. These six dimensions are common

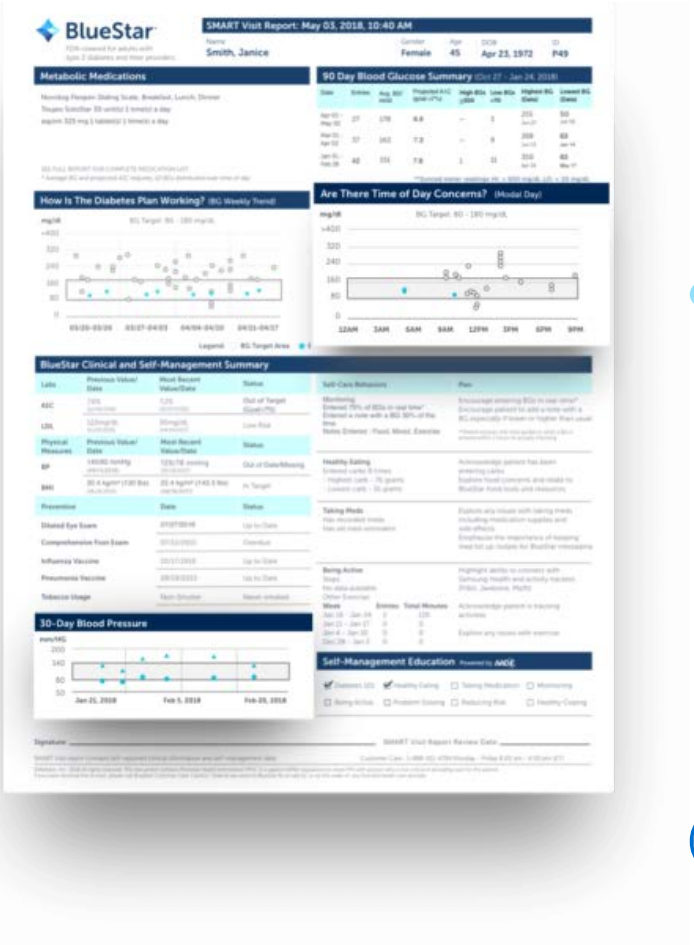
across many chronic conditions like diabetes, blood pressure, pre-diabetes, and heart failure.

- Activity & Exercise
- Diet Tracking & Meal Planning
- Social Determinants of Health
- L

INTEGRATIONS

Advanced clinical decision support built from the ground up

BlueStar generates a SMART Visit Report on the back end of our product. This can be delivered via email or fax to a user's primary care doctor, endocrinologist, nurse practitioner, etc. This report contains clinical decision support (CDS) for more productive care team visits.



More about CDS

FDA cleared

Seven 510 (k) clearances, OTC, and Rx

Fully HIPAA Compliant

SOC 2 Certified

ISO 13485 Certified
