GREEN IMAGING DIRECT

Green Imaging Direct Employer Direct Radiology

Green Direct is a radiologist founded full-service direct care radiology network. We give independent imaging centers access to employer contracting and aggregation of purchasing power and we offer self-funded employers and other entities offering healthcare cost containment services access to high quality imaging nationally at often 1/3 or less the average price paid for that exam in a self-funded health plan.

Employees can access our services through our handy app or through our imaging concierge service. Employers have a single resource to incentivize employees to use high quality, lower cost facilities nationwide. Our services are easily added alongside an ERISA plan or as a plan amendment, no need to wait for reenrollment to provide welcome savings for employer and employee!

The Right Price

No added bureaucratic costs or expensive middlemen to inflate the fair flat price.

The Right Exam

PET-CT, CT, MRI, Ultrasound, Mammography, Bone Density, Nuclear Medicine, X-ray, Arthrograms, Myelograms

The Right Technology

Our wide range of accredited facility options ensures that patients have access to the highest quality machines for their exams.

The Right Radiologist

Board certified and fellowship trained in-house radiologists guarantee quality reports and direct communication with referring physicians.

Going Green Imaging Direct Your easy access to our direct radiologist care.

1. Exam Order After you have acquired a signed order from your referring doctor, contact Green Imaging Direct to find the best imaging center for your exam:
 Call our schedulers at (855) 447-3362
 Email verify@greenimaging.net

2. Verification Green Imaging Direct scheduling advocates verify your benefits. Green Imaging Direct forwards a confirmation of your benefits and your contact information to the appropriate facility.

3. Appointment The imaging facility contacts you to coordinate an appointment.

4. Payment Green Imaging invoices your employer directly for the exam. You will not be billed separately unless you have a patient payment responsibility.

5. Report Exams are read by the radiologists at the facility, and reports are delivered directly to your referring physician. The medical process remains the same.
