

HAVE QUESTIONS OR NEED SERVICE? WE'D LOVE TO HELP.

Powerhouse Equipment & Engineering has a full in-house engineering and drafting department under the supervision of a licensed professional engineer. Our Engineering Department has over 30 years of experience in designing, reverse engineering, and evaluating many types of boilers, steam and hot water power plant systems, fuel piping, and pressure vessels to ASME and National Board Code as well as many other design standards. Our full-time engineering staff is here for you, to help plan and implement your project from beginning to end.

The years of experience of our Engineering Department combined with the advanced technology available to the department, enable Powerhouse Equipment & Engineering to be the most effective partner for your design and engineering requirements.

- Boiler Installation
- 24/7 Emergency Service
- Boiler Repair
- Burner Service
