Speed. Agility. Precision. BravoTECH is one of the fastest-growing IT staffing companies in the country because we are able to locate the technical talent you need more quickly and with greater precision, to accelerate the success of your IT operations and projects. Our focus is on providing **high quality candidates** through the use of **best recruiting practices** by **seasoned technology staffing and staff augmentation professionals.**

Do you need a staffing partner that works harder and smarter than the rest?
 Are you an IT pro who doesn't have time to waste with inexperienced recruiters?
Then you've come to the right place.

THE RIGHT PEOPLE AT THE RIGHT TIME

BravoTECH provides business technology talent for your changing requirements, whether you need short-term resources for a critical project or additional help for your day-to-day operations.

We blend traditional recruiting methods with the latest technology-based techniques to find skilled people more quickly – including candidates with hard-to-find skillsets and those who are not actively seeking employment. Day in and day out, we are entrenched in the IT community, developing a pipeline of qualified candidates with a wide range of skills and experience.

We understand that it's our job to streamline and accelerate the hiring process – not send hundreds of resumes for your review.

Experienced Recruiting Specialists

BravoTECH's recruiting capabilities are second to none. Our seasoned recruiters have years of experience, and they specialize in targeted skill sets to become truly knowledgeable about the available pool of candidates within each area of specialization.

Our intensive screening, interviewing, and testing processes ensure that the candidates we recommend are qualified and will make a positive contribution to your workplace. We follow up frequently with each hire and hiring manager, making sure that our people are productive and meeting your objectives. As your needs change, we work with you to maximize productivity in your current business environment.

Available SERVICES

Contract and Contract-to-Hire ▲

BravoTECH can help you secure IT professionals on a contract or contract-to-hire basis. Contract employees can be available for a specified time period or accomplished benchmark, and they may be paid at an hourly, daily, or weekly rate. Reduce your risk by getting to know an employee before a direct hire offer is extended. You have the option to convert one of our contract employees to a full-time, direct employee of your organization once the initial contract obligation has been met. Our turnkey employment services include recruiting candidates to your specifications; thorough screening, reference and criminal background checks; testing at your request; hiring and termination; payroll and statutory taxes; benefits administration; and the handling of employment and performance issues.

You can rely on us to accelerate the process of securing candidates for direct hire, full-time positions. Our recruiters specialize in locating hard-to-find candidates with specialized skills. We can provide recruiting services; thorough screening; reference and criminal background checks; and testing at your request.

Full Time, Direct Hire

SOW Project Services

BravoTECH offers statement of work (SOW) project staffing services that reduce risk and maximize returns through defined project scope, objectives, timelines and deliverables, allowing you to optimize internal staff while outsourcing simple, complex or special

non-recurring projects.
