Wired DVR Systems

Night Owl's Wired World offers complete and expandable DVR Kits, Standalone DVR's, BNC Add-on security cameras, and all the accessories you need for your Wired system. Night Owl's HD Wired DVR video security systems are great surveillance solutions and are available in multiple configurations, with and without security cameras. A wide selection of security cameras for homes and businesses are available to provide your property with maximum security.

Night Owl's DVR Kits provide everything you need to install and setup a true CCTV video security system. Choose between complete kits or expandable models that allow you to add security cameras as your coverage needs grow. Both options and expandable kits come with all the accessories you will need for installation. Don't need a kit? Maybe you just need to replace or upgrade your existing DVR? Our Standalone security DVR's offer various channel configurations (one camera per channel) and are available in multiple resolutions. Night Owl Standalone DVR's come with and without a pre-installed hard disk drive. Are you looking to upgrade your security cameras? Perhaps you just want to add more to an existing system. Night Owl's Add-on BNC Wired security cameras are the industry leader and America's #1 choice. From extension cables to power adapters and beyond, we offer all the accessories you need to install and keep your Wired DVR System running. Night Owl's Wired DVR Systems help you to secure and protect your world.

Key Features Specifications Package Contents Reviews Questions

Key Features

- 5MP Video Security System
- View & Playback Footage Directly from your Smart Device
- Patented Dual Sensor Technology Reduces False Alerts by up to 90%
- L2 Color Boost® Technology
- No Monthly Fees
- 24/7 Technical Support, Available 365 Days a Year

Extreme HD® 5MP Resolution

- 5 Megapixel (MP) (2560 x 1944 pixels) Extreme High Definition cameras
- 2.5x more pixels than standard 1080p (2MP)
- Smart Detection Security System with Dual Sensor alerts

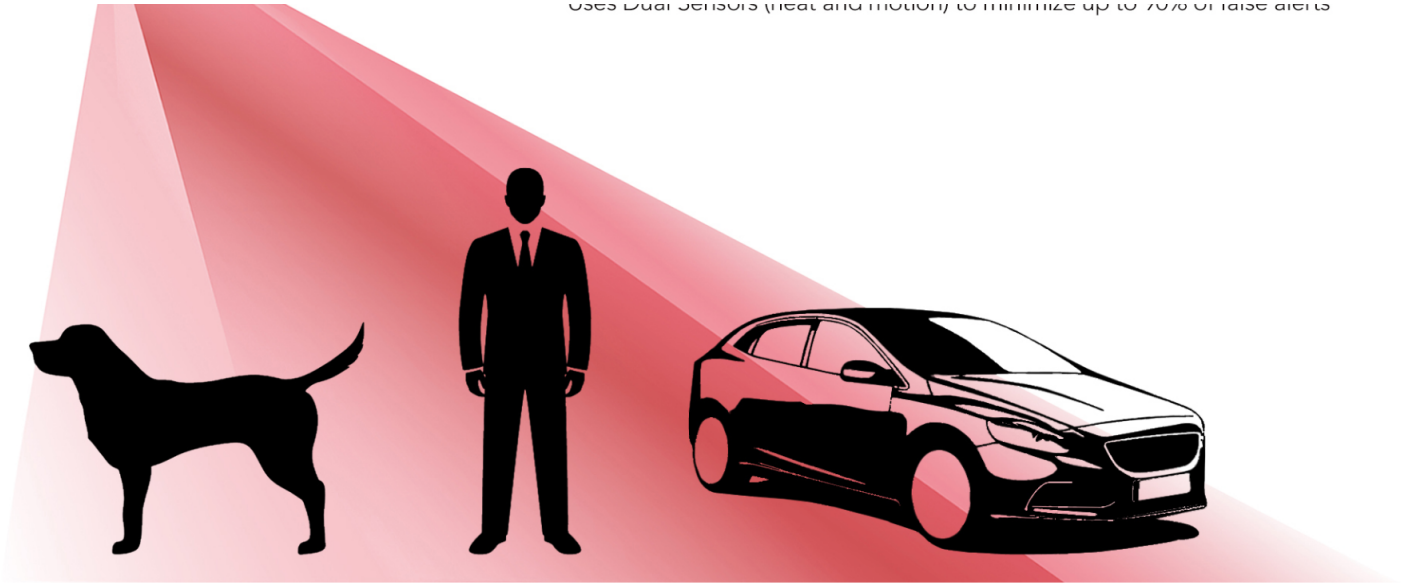

L2 Color Boost® Technology

- Captures full-color video in low-light settings
- Low-light (L2) sensors produce detailed full-color video even as light fades away
- 100 ft. of rich and detailed Night Vision
- Only switches to Night Vision if necessary

Smart Motion Detection Patented Technology

Uses Dual Sensors (heat and motion) to minimize up to 90% of false alerts

Uses Dual Sensors (heat and motion) to minimize up to 70% of false alerts

Smart Dual Sensor Technology with Real-Time Motion Alerts

- We are pleased to announce that Night Owl's innovative technology combining visual and infrared detection in select security camera systems is now patented. On September 10, 2019, U.S. Patent No. 10,410,489 (entitled "Security Camera System") was granted to Night Owl, confirming that Night Owl is a leading innovator in the security technology industry.
- System records only when necessary to conserve hard drive space and sends you alerts that matter
- Receive a real-time motion alert directly to your Smart Device when heat + motion are detected in the selected zone

**100FT
NIGHT VISION**

Enhanced Night Vision

- Up to 100 ft. of Night Vision
- Full-color day vision / black and white Night Vision
- 5MP resolution day or night, rain or shine

Weather-Resistant Indoor/Outdoor Cameras

- Cameras designed for indoor and outdoor use
- Weatherproof to withstand moisture and dirt debris
- Equipped with 3-axis vandal-proof mounting bracket preventing exposure from potential intruders

Hardwired Security System – CCTV (Closed Circuit Television) with Internet Option

- Hardwired security system provides uninterrupted viewing and recording
- No interference from other Wi-Fi devices
- No Internet required for viewing your recordings on a TV or monitor

3 Easy Ways to Connect

- Easily connect to your computer, smartphone or tablet
- View your system from anywhere in the world
- Absolutely no monthly fees, EVER!

Private Access to Video

- User video is never transmitted to our server, nor any third-party server
- Cameras and smartphone operate as peer-to-peer devices

24/7 Technical Support, Available 365 Days a Year

At Night Owl®, our goal is to provide an unparalleled experience for any technical support required. We provide more assistance than any other security brand.

- Why call? Our support site has it all
- Extensive library with Support Articles and Videos available on Night Owl's support site
- Absolutely no monthly fees!
- Tri-lingual support available (English, Spanish and French)

America's #1 Wired Video Security Brand

With cutting edge technology and the consumer's best interest at heart, Night Owl is the #1 Wired Security Camera Brand in the U.S.* Through innovation and the relentless pursuit of excellence we are excited to present our SMP Security System with Patented Dual Sensor Technology. We are bringing innovation to the palm of your hands.

Footnote:

(1) Internet and Smart Device access requires a router and a High-Speed Internet connection with a minimum 2Mbps upload speed. If your DVR is not connected to the Internet you will not be able to remotely view your system on your Smart Device or PC/Mac. May require a free firmware update.

(2) The DVR is currently accessible on iPhone®, iPad®, and Android™ running on 32-bit Smart Devices. Push alerts currently available on Android™ and iOS®.

(3) Night Owl® does not charge any monthly fees to view or control your DVR's over the Internet and/or Smart Device. Carrier fees and charges may apply.

(4) Night Owl® apps are free downloads compatible with Apple® and Android™ devices only. Compatibility at the time of manufacturing. Future Android™ and iOS® updates could affect the App experience.

(5) Do not recommend using the cameras in temperatures below -4°F or above 140°F. These cameras are weather-resistant, not waterproof. Not for use in direct exposure to water.

(6) Night Vision range up to 100 ft. under ideal conditions. Objects at or beyond this range may be partially or completely obscured, depending on the camera position.

(7) The cameras included with this system are not audio enabled.

(8) Recording capacity may vary. The size of your pre-installed hard drive will affect recording capabilities. Optimal recording based on using the lowest recording quality settings with one camera.

(9) Video streaming may be subject to interruptions or failures for reasons beyond Night Owl's control, such as intermittent Wi-Fi or service provider outages.

(10) Night Owl® does not provide third party monitored emergency notification or response.

(11) Never install or remove the HDD while the DVR is powered on. Opening the cover of the DVR may cause severe electrical shock.

(12) Thermal image is for example only and not an actual camera produced image.

(13) Images may vary.

(14) We are pleased to announce that Night Owl's innovative technology combining visual and infrared detection in select security camera systems is now patented. On September 10, 2019, U.S. Patent No. 10,410,488 (entitled "Security Camera System") was granted to Night Owl, confirming that Night Owl is a leading innovator in the security technology industry.

DISCLAIMER: Certain uses, publication and/or distribution of video/audio recordings from security cameras and/or audio devices are prohibited or restricted by federal, state and local laws. When enabling and/or using audio recording features with your hidden security camera, be sure to comply with the laws in your country, state, and locality. iOS is a trademark or registered trademark of Cisco in the U.S. and other countries and is used under license. iPhone, iPad, Mac and macOS are registered trademarks of Apple Inc. Windows 7, Windows 8 and Windows 10 are registered trademarks of Microsoft Corporation in the United States and/or other countries.
