 A new and exciting variegated form of Beauty Berry with creamy white variegated foliage. Foliage clusters of pink flowers bloom in spring, result in crops of rose-purple berries in autumn. For enhanced berry production, plant another of the same species nearby to serve as a pollinator. Leave in the mixed border for months of colorful foliage.

Summer Snow® Beauty Berry

Callicarpa dichotoma 'Summer Snow'

Grow, Bloom & Thrive

- LIGHT**
Full sun
- WATERING**
Prefers evenly moist soils.
- AVERAGE SIZE**
Reaches five feet tall and four feet wide.
- BLOOMS**
Spring
- HARDINESS ZONE**
USDA Zones 6-10
Avg. min. temp. -10° F to 0° F
- Landscape Use**
Border, Container, Mass Planting

Planting for Success

- 1) **DIG HOLE.** Two times the width of the pot.
- 2) **PREPARE SOIL.** Combine planting mix and soil. Add a slow release starter fertilizer.
- 3) **SET PLANT.** Place plant in a hole so top of root ball is slightly above the ground level.
- 4) **BACK FILL.** Pack soil gently but firmly, and form a berm.
- 5) **WATER TO SETTLE.** Add more soil as needed, water again.
- 6) **FINISH.** Add a 1/2" layer of mulch.

Care Instructions

Follow a regular watering schedule during the first growing season to establish a deep, extensive root system. Feed with a general purpose fertilizer before new growth begins in spring. For a tidy, neat appearance, shear to shape in winter.

Monrovia plants are grown in our custom-blended, nutrient-rich soil, giving them a healthy start for your gardening success.
