Product Description

Safety Warning

Outfit the entire class with magnetic dry erase boards. Great for independent learning, these blank boards are magnetic/dry erase on one side and dry erase only on the other side.

★★★★★ **Great Homework Help**

Dotty used this to help with her Maths homework (addition). When she finished she then set additional sums for fun.

★★★★★ **I would buy this product again.**

Wow! The colors are vibrant and seem to be full of ink. I can't wait for my little ones to stamp out their names!

★★★★★ **I bought this product after using a friend's**

A friend let me borrow hers for a class project, and I bought one for my own class.

★★★★★ **Great toy to explore math concepts**

We have really enjoyed using this cube set with our young children (4 & 6) to explore math concepts (fractions, area, volume, etc.) The cubes are durable, fit together easily, and have a nice feel to them as you handle them. They have helped our kids visualize the math concepts in a more effective way- would recommend them!

★★★★☆ **Successful purchase would buy again!**

Perfect for mathematical development in Pre-school ! The children sat and concentrated on fitting them together !

★★★★★ **A great word building tool as well**

I found these to be helpful for literacy lessons as well. When I assembled them as blocks and placed diagraphs on them, I found a wonderful new tool for helping students with decoding. I also used them as sentence markers to help students build fluency. Overall. These cubes are wonderful all around teaching tools.

★★★★☆ **Fun to build & play with, not only Math**

I am very happy with my purchase. They only negative I have is, I thought it would come with at least one basic workbook and it did not. But my 3 year old son loves them at daycare and requested "Math Cubes" for his 4th birthday. He wants no other present than them!
