Soooo good!

Terry on Feb 21, 2020

I love dark chocolate and this by far is the best I've had. Dark chocolate typically doesn't agree with my body but that is not the case here. I agree with the 3 previous. The mushrooms make it deliciously earthy tasting and so satisfying. It is my go to snack for not only chocolate but a pick me up. It really is functional bliss! You are so hope there is more to come....soon!

Thank you so much for yet another quality product.

My New Favorite Chocolate

Stephanie on Feb 01, 2020

Tastes just like my mushroom cocoa, but in a bar that I can easily take on the go.

The calming mushrooms help to balance the stimulating cocoa - puts my mind and body at ease.

Any time I feel unsettled, stressed, or off-balance, I take a square (or 3) - Works like magic :)

Lovely hints of earthy, mushroom (I like my coffee and tea black and appreciate the natural mushroom flavor).

Perfect amount of sweetness from coconut sugar.

LOVE this product!

5 Defenders Chocolate Bar

stephanie on **Jan 03, 2020**

the 5 Defenders Mushroom Chocolate bar is so yummy that it gets eaten way too quickly and is gone before i know it. does not taste like mushrooms or smell like th you like dark chocolate this is a must try. smooth and creamy.

plus, it contains 2 grams of functional mushrooms per serving, and anything over 500mg of mushrooms is considered a potent dosage.

no fillers, additives nor emulsifiers chocolikeylikeyloveit!
