Major League Soccer Statement on CDC Recommendation

MAJOR LEAGUE SOCCER STATEMENT

NEW YORK (March 19, 2020) – In accordance with the Centers for Disease Control and Prevention’s guidance to postpone events involving more than 50 people over the next eight weeks, Major League Soccer has extended the postponement of its matches during this period of time. MLS remains focused on playing the entire 2020 season and is evaluating all options, including pushing back the end of the season and playing MLS Cup in December, as the league did prior to the 2019 season. The league is also identifying other available dates. Throughout this process, MLS will continue to prioritize the safety of our fans, players, employees and partners and to coordinate with federal and local public health authorities as well as other sporting organizations.
