

The Future Gas 4.0

PWS CO₂ Cumulative Reduction Today

40763 kilograms

Our Purpose

Pure Well Solutions (PWS) is an impact investment company providing sustainable oil and gas products and services by managing available resources, technologies, and investments to optimize efficiency and reliability. Guided by the tenets of a “Circular Economy” and committed to sustainability, PWS aims to redefine the current take-make-waste industrial model of the oil & gas sector by delivering the triple bottom line:

People, Planet, Profit.

Our Commitment

Sustainable Development Goals

PWS has adopted a **Sustainability Plan** in alignment with the UN 2030 Agenda for Sustainable Development. PWS has identified Goals **#9 (Industry, Innovation & Infrastructure)**, **#12 (Responsible Consumption & Production)** and **#17 (Partnerships)** as most relevant to our organization's activities, priorities and impacts.

Corporate Responsibility

In continuation of our commitment to **Sustainable Development**, PWS has adopted a commitment to a yearly audit review of our sustainability efforts. By doing so, we are also able to aide our customers with audit services to ensure organizations are equipped with today's UN sustainability targets.

Impact Investment

As an **"Impact Investment Company,"** PWS is committed to donating a minimum 1% of profits to charitable organizations within our sphere of influence.

Sustainable Oilfield Products

To meet the intensifying urgency for the oil & gas sector to address environmental concerns, PWS offers **100% Measurable Sustainable oilfield products** that optimize efficiency and save energy with their waste-eliminated patent-pending technology.
