**SPECIFICATIONS**

**ABOUT THE FURY™ 30-WATT MOTORCYCLE POLICE SIREN & SPEAKER ALL-IN-ONE SYSTEM**

The Fury™ 30-Watt Motorcycle Police Siren from SpeedTech Lights is here! This unit is an all-in-one motorcycle siren and speaker combination that gives you a choice between a variety of siren tones and air horns. With a powerful 30-watt output, this compact motorcycle siren packs intense power and can function as a single all-in-one siren & speaker unit, or as a basic speaker for any siren system. Why that, but this unit also allows you to connect a secondary police motorcycle siren to it for "master & slave" functionality to double the intense siren/speaker output.

This unit is the perfect motorcycle police siren for any police bike. With an L-bracket included for mounting this siren/speaker, you have great flexibility when mounting this unit. Because it is so compact, you can even use it for your emergency vehicle siren and speaker application, not just as a motorcycle siren.

This Fury™ Police Moto-Siren comes with the trusted SpeedTech Lights 5-year warranty. It's rugged, durable, weatherproof, and built to last. Check out the Motorcycle Police Siren Control Box offered as an optional drop-down add on for an easy way to connect this unit for easy installation and functionality.

**Features:**

image

- Powered by 12V
- Clear sound frequency
- 30-watt output
- Independent siren tones for easy selection
- Tones include: Wail, Mech, Yelp, Sting, Tool, Hi-lo, Horn A, Horn B
- Combined all-in-one siren and speaker unit
- Can be used as an individual speaker only
- Secondary speaker optional for additional output as "master and slave" unit combo
- Radio rebroadcast feature included
- Includes L-bracket for mounting unit
- Includes 15" cable from back of siren speaker
