The Light of The Siren Personal Safety Alarm is LOUD at 130db! It can attract attention when needed from hundreds of feet away, while scaring off any active or would-be attackers. Also included is a super-bright LED light to help with night visibility.

Situations where we see the Personal Safety Alarm used most commonly include school bullying, emergency self-defense situations, burglaries, night running or dog walking, and in emergency situations involving the elderly.

Features:

- 130db sound - be heard from HUNDREDS of feet away! Scare off your attacker while simultaneously attracting help.
- LED light - help with night-time visibility while walking, running, walking your dog, hiking, camping, and more.
- Easy to activate - just pull the pin and the siren will blare!
- Lightweight & Portable Alarm Keychain: Self defense alarm can be attached to purse, backpack, keys, belt loops, suitcases, and more. It also can be brought onboard a plane, really convenient, fit for Students, Joggers, Elders, Kids, Women, Night workers.
