

Duz-it-All is the first combination fixed and slip bobber (with a molded slot for fixed fishing) ever introduced to the market, a huge breakthrough in bobber design! In addition, Duz-it-All's metal grommet (not plastic) totally eliminates line grooving which many times causes impeded line flow. Although illustrated with a bead as shown above right, Duz-it-All's metal grommet hole is small enough for the fisherman to rig the Duz-it-All bobber without the need for a bead.
