Investments in private placements are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest. Additionally, investors may receive illiquid and/or restricted securities that may be subject to holding period requirements and/or liquidity concerns. Investments in private placements are highly illiquid and those investors who cannot hold an investment for the long term (at least 5-7 years) should not invest.

Alternative investments should only be part of your overall investment portfolio. Further, the alternative investment portion of your portfolio should include a balanced portfolio of different alternative investments.
