

ICON

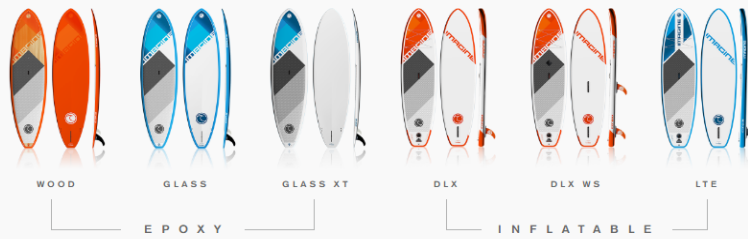

ALL AROUND PERFECTION

Wide and stable with tons of volume, the Icon is extremely versatile as it excels in all conditions. The most stable and versatile all-around planing hull on the market that still surfs like a performance board. Take it for a paddle around the lake, surf your favorite secret spot, or take advantage of those windy afternoons and attach a windsurfing rig. Now you have the right board to get you on the water no matter the conditions. Kalamia Performance in every design detail.

WOOD COMPOSITE

The Epoxy Icon Wood Composite takes the artful look of traditional hand-built softwood surfboards and pairs it with the cutting-edge construction techniques of today's surfboard industry. Durable and lightweight, Imagine Surf's Wood Composite layup brings the highest level of performance out of the Icon's forgiving outline.

Our premium Wood Composite technology with polished rails and a matte finish on the deck and bottom, combine the aesthetic beauty of natural wood layers with the lightweight durability of reinforcing glass layers.

FEATURES

- IMPACT RAILS**
Additional glass along the rails. Adds stiffness and impact strength.
- HEAT EMBOSSED DIAMOND GROOVE EVA DECK PAD**
Comfy grip and heat sealed to keep the pad watertight to reduce board weight.
- WINDSURF INSERT**
Remember how fun windsurfing was! The Icon is perfect for recreational sailing too!
- ACTION CAM INSERT**
Capture memories to last a lifetime.
- GENUINE FCS FIN**
2 + 1 / FCS Dolphin Fin / FCS M5
- DIMENSIONS**
11' x 34" 206 LTR / 10'2" x 32" 169 LTR / 9'6" x 31" 149 LTR

ALL WOOD BOARDS

Our Wood Composite layout includes a full wood top-sheet, full glass deck, bottom and rails, with additional glass reinforcement on the deck and parabolic glass layer on the rails to increase impact strength.
