Design + Manufacturing of Electrical Assemblies and Kits

Substation + Transmission and Distribution

Building + Electrical Construction

Lean Transformation + Consulting Services

Construction Innovations is engaged in the design and manufacturing of assemblies and kits for the construction industry.

Housed in a 320,000 square foot facility, our capabilities include engineering, design, fabrication and assembly of custom electrical products and kits. We provide fully integrated solutions, logistic services and scheduling coordination to deliver kits on time to the project site.

INNOVATE TO SIMPLIFY

We have a passion for innovation. Our mission is to create value by challenging industry norms using specialized designs, flexible manufacturing and efficient installation methods to simplify construction. Our diverse team of product engineers, process engineers, Lean manufacturing experts, procurement and logistics experts, and transformational consultants are dedicated to providing unique solutions that benefit our customers and the construction industry as a whole.

CONSULTING
SERVICES

- Proprietary processes to produce electrical and low voltage kits within the Lean production model
- Leading U.S.-based manufacturer of inverter skid assemblies for utility-scale solar projects
- UL Listed electrical products
- Streamlined logistics to reduce handling and freight costs
- ISO 9001:2015 certification in process
