

# ProLEAF MAX™

ProLEAF MAX is the product which forage users have been seeking for years. Using state-of-the-art patent-pending Green Gold Development technology, ProLEAF MAX is made from alfalfa leaves harvested directly in their optimal state. The result is consistent and superior forage-based nutrition. ProLEAF MAX delivers better protein, fiber and higher RFV every time. Unlock the potential of alfalfa, the queen of forages, by feeding ProLEAF MAX to your herd.

## PROLEAF MAX PROCESS

## PACKAGING

- Bulk Truck
- One Ton Tote
- Bags: 5-50 lbs

## BENEFITS

- Highly Palatable
- No Additives
- No Binders

## NUTRITIONAL VALUE COMPARISON

	ProLEAF MAX*	Alfalfa**
As-Fed Basis	Product Label	Typical Analysis
Max Moisture %	12	12
Crude Protein, (min)%	28	16
Crude Fat, max %	2.5	2.5
Crude Fiber, max %	18	25

\*ProLEAF MAX is a registered feed product in the State of Idaho

\*\*Based on typical good quality alfalfa

### Additional Nutrient Values (Dry Matter Basis)

Met. Protein, estimated %	19.09	10.91
NDF, max %	18	45
TDN %	70	55
RFV	>320	140
Net Energy, Lactation (Mcal//lbs)	TBD	TBD
Net Energy, Maintenance (Mcal/lbs)	TBD	TBD
Net Energy, Gain (Mcal//lbs)	TBD	TBD
