## Mold Remediation, Germ & Allergen Removal & Air Purification

### What We Offer

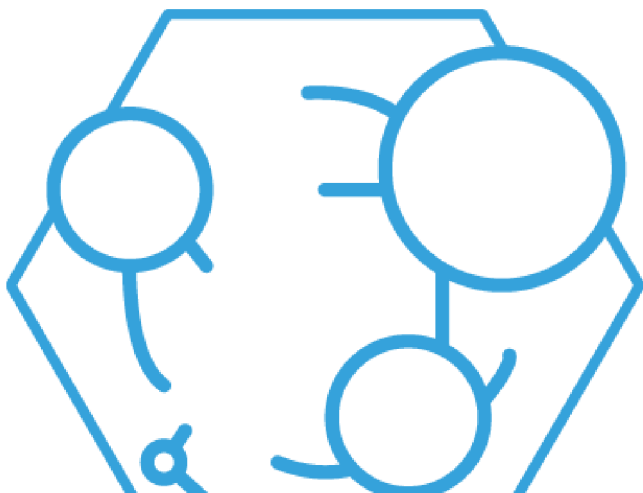

Our patented cleaning technology uses an EPA-registered, non-corrosive disinfectant that is gentle enough for the home or

IMG 3664

workplace. Nano's innovative spray system ensures maximum coverage to all surfaces and tackles problems at the molecular level, eradicating mold and eliminating germs. As Healthy Home™ Experts, we advocate a 4-step process that purifies the air quality in your home and ensures that your family is safe, healthy, and protected against harmful particulate.

We'll remove them on  
a molecular level.

## AIR PURIFICATION

Feeling ill? We'll clear  
the air of allergens.

# 4 Steps To A Healthy Home

As Healthy Home Experts, we advocate a 4-step process that purifies the air quality in your home and ensures that your family is safe, healthy, and protected against harmful particulate. Nano's innovative technology and process couples EPA-registered, hospital-grade disinfectant and NanoStatic application that allows for complete sanitization and 100% coverage of all surfaces including micro cracks and crevices for a clinically clean environment. Nano's touchless application process allows for a true, deep clean that is otherwise unattainable through conventional cleaning methods.

## CRAWL SPACE ENCAPSULATION

Full encapsulation including vapor barrier, dehumidifier installation and

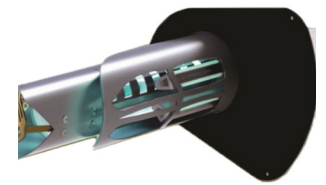

## ENVIRONMENTAL DUCT CLEANING

Remove all dust and particulate build-up contaminating your air system.

## TOUCHLESS NANOSTATIC TREATMENT

NanoStatic treatment eliminates mold,

## PREVENTATIVE MAINTENANCE
