

Wayfinding Navigator

Safe Wayfinding with WorkSafe's Wayfinding Navigator

Wayfinding that knows the safe routes

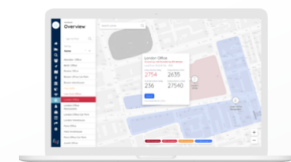

A map in the app

An indoor map of the office is made available in the app. Search for a destination.

Knows the safe way to route people

Safe distancing routes that include one way paths around the building are made available

Gives directions

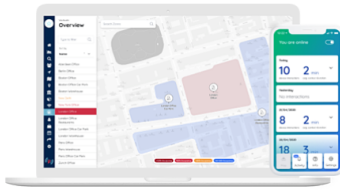

An employee or visitor searches for a destination in the office (e.g. meeting room) and is given directions along the safe routes

How it Works

1. Setup safe routes

2. Search destination in app

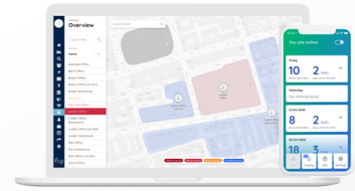

3. Take along the safe route

Using the dashboard, set up the safe routes (e.g. which corridors are one-way)

An employee searches for a destination in the map in the app (e.g. a meeting room)

The app knows which is the safe route and navigates the employee there

Choose your plan

WorkSafe Standard

Available in an App now

- ✓ Contact Tracing (device-to-device)
- ✓ Check-in (on arrival)
- ✓ Check-out (with office hours)
- ✓ Occupancy Manager (building)

Get started for \$99
