

Services

Services

At Fourth Industrial Systems, our services are to help our cloud computing industry customers design and build effective, meaningful, and relevant conversational artificial intelligence and machine learning communication tools that improve the web accessibility experience. At 4th, we work directly with your Information Technology team from beginning concept, through the design phase, and finally implementation. Our goal is to provide you with various CAIML tools that are content-specific while also incorporating your organization's overall brand and theme to create unity across the network from department to department.

CAIML Concept

Meet and discuss your data scientist and chatbot developers and care specific needs. We also will work to understand your network's branding and design goals.

CAIML Design Architecture

Start with first-pass design architecture. We will then work with you directly to make changes and improvements throughout the design process until we have developed the perfect CAIML Enterprise Project for you to use with your customers. During this phase, we will also discuss the different products we have available to determine the right fit for your group.

CAIML Enterprise Project

Once you have your CAIML design tools in hand, we will follow up with you to make sure they are effective. We will also support you after installation with any accessories and additional tools you may find that can continue to improve your customer's experience moving forward.

Service Domains

- Virtual Assistants
- Wearables
- Scientific Workbooks
- Machine Learning
- Deep Machine Learning
- Machine Programming

DUNS & CAGE Information

DUNS: 109463426

CAGE CODE: 8JTP8

PHILOSOPHY

Fourth Industrial Systems, Inc. is committed to helping its Cloud Computing Industry partners design, implement, and use CAIML - Conversational Artificial Intelligence and Machine Learning to better effectively communicate with their customer

PARTNERS

INITIAL CONSULTATION

Schedule an initial consultation. We'll evaluate your Enterprise IT Architecture and develop a CAIML concept for your operations.

[REQUEST A CAIML CONSULTATION](#)

\$1500 for Initial Consultation

[Accept Credit Cards](#)
