**BEST PRODUCT FOR SUNBURN**

**STANDS THE TEST OF TIME!**  
(POSTED ON 9/10/2019)

I found this product while visiting Key West over ten+ years ago. It has been my 'go to' for not only after sun care, but also for poison ivy relief, eczema flare-ups, and numerous other scrapes and scratches. A little goes along way and has been a staple item in my medicine cabinet for years.

**BEST ALOE PRODUCT**  
(POSTED ON 9/10/2019)

Discovered this product while in key west and my daughter had had too much sun. It helped her so much taking the heat out of her burn and healing her skin. I only use this now when we have these situations. Works like a charm.

**ALL TIME FAV**

This item stays in my travel bag at all times. Not only has it helped me through tough sun burns but it has also been distributed to a vast cadre of friends with similar afflictions. Thanks for this wonderful little product.

**LIFESAVER WITH CARAC!!!**  
(POSTED ON 2/25/2019)

I had a squamous cell carcinoma removed via MOH surgery from my face and my surgeon/dermatologist had me use Carac for early detection of other precancerous spots. This is an external chemotherapy cream that can burn off a layer of skin leaving your face raw, blistered, etc. While it heals it itches and burns very badly. I found Comfortcaine with 4% Lidocaine and it was the ONLY thing that gave me any relief. Every dermatologist should know about this product! I recommend it to anyone going through Carac, shingles, etc. To me, it has been a lifesaving cream. Thank you Key west Aloe!

Comfortcaine is absolutely the best aloe product ever. We found the store on a cruise stop in KW in 2017. The after sun soothing lotion works instantly! It's better than anything I've ever used, and would recommend it to everyone. If you can't get to KW, order it online!

**EXCELLENT**

(POSTED ON 6/27/2016)

While on a cruise recently I missed a few spots with sun tan lotion and had some sunburn issues. I had purchased the Comfortcaine as a precaution and was extremely pleased with the relief it provided. I've used Save-A-Tan for over a decade and am adding this

**GREAT RELIEF**

(POSTED ON 11/6/2015)

This stuff has worked wonders for me on many occasions. When I got a little too much sun I bought this and it kept my skin hydrated stopped my skin from feeling like it was on fire. It was the only thing that would let me get any sleep! Also have used it for mosquito bites and it helps with that relief as well.

**GREAT PRODUCT>**

(POSTED ON 8/6/2015)

I really like this product, it works to take the stinging away from my Psoriasis. The only thing that needs changing is the why it is dispensed. The only way to get the aloe out is to squeeze it, then a big blob comes out. Change the packaging and I will buy it again.

**DON'T GET BURNED WITHOUT IT!**

(POSTED ON 3/9/2015)

This is truly awesome stuff! I keep it in the refrigerator. My daughter went out boating with some friends and came home with a really burned face. Applied this before bedtime and the next morning she was good as new!

**A MUST HAVE**

(POSTED ON 10/11/2014)

Discovered this amazing product on a trip to Key West years ago. There is always a bottle handy in my kitchen and in the bathroom medicine cabinet and one in my suitcase when we travel. It is wonderful for dealing with sunburn, insect bites (not fire ants though) and minor household burns. It not only takes away the discomfort, but really promotes healing. One of the best products ever!

Whenever we visit Key West, we always try to stop by the KWA store because we love their products. This time, we desperately needed their help when despite applying sunscreen several times during a day trip on the ocean, we were terribly sunburned. The Comfortcaine and aftercare lotions were just what we needed! Excellent product. I highly recommend it!

**A MUST HAVE**

(POSTED ON 8/18/2013)

My husband worked with a fellow that did a lot of diving. When our grandson inadvertently got a pretty bad sunburn, my husband's employer gave him a bottle of the Comfortcaine to use on the child's burn. It was like watching a miracle happen! The tears stopped as the pain immediately disappeared. The rapid application of the "cool blue" eased the pain and kept the burn from blistering. I keep a bottle in the refrigerator all the time now!

**THE BEST!!**
