Maximize Your Output & Potential

High Output is a NYC-based boutique leadership development company led by [Steve Schlafman](#). We exist to help founders bring their wildest visions to life and evolve into extraordinary leaders. We achieve our mission through one-on-one coaching, workshops, 360 reviews, and seed investing.

We work with founders on the inner and the outer game of startups. The "inner game" involves the intangible part - regulating your emotions, tapping into your intuition and so forth. The "outer game" involves the strategy, tips, and tactics of running a company.

We are here to help you and your company thrive.

Say [hello](#).
