DURST ON POINT

For over 100 years, The Durst Organization has been a family-owned business dedicated to the principles of innovation, integrity, community, and sustainability.

The Durst Organization develops, builds, owns and manages premier residential buildings and office towers that set new standards in environmental responsibility, comfort and user efficiency.

With four generations of experience, Durst develops properties in which people can live, work and thrive.

In addition to real estate activities, Durst founded The Model Organic Farm Foundation, a non-profit organization that operates one of the largest organic farms in New York State.
