"We've never seen anything quite as slick as Kangaroo's (tech on Privacy Camera)"

"What sets the Privacy Camera apart, however, is its PDLC lens."

★ REVIEWS

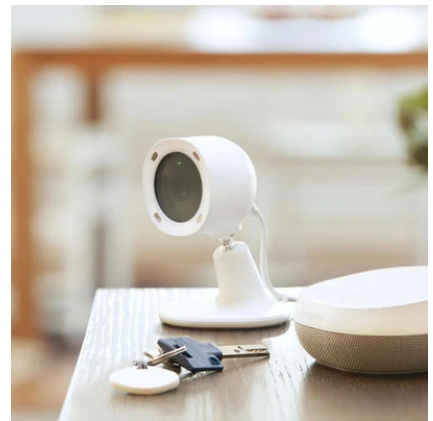

Seamlessly Integrated Privacy Protection

In Privacy Mode, the PDLC lens transforms into an opaque shield blocking the camera and cutting off the microphone.

Made For Easy Home Monitoring

With video motion alerts, 1080p live-streaming, 3x zoom and video cloud storage, Privacy Camera lets you keep an eye on your space from anywhere.

Fear-Free Setup

It takes less than 5 minutes to get started with your Privacy Camera. Just plug your camera into an outlet and let the Kangaroo app walk you through our speedy setup, step-by-step.

Next Generation Privacy Protection

Privacy Camera's patented lens technology disperses light when the camera is in Privacy Mode, giving you visually-verifiable evidence that the camera is prevented for capturing activity.

Smile, you're not on Privacy Camera

With its revolutionary Privacy Shield, you'll never be left wondering if someone is watching you.

I wish the recording feature
I wish the recording feature was available, but otherwise, this is a great product and gives me good peace of mind "spying" on my pets when I'm not home! 😊

Enjoying so far...
Easy to install, this Device works very well, but not all of the features are very good. There is no back up as of this and I am not sure when this will occur. I am happy with the purchase so far except for those few issues.

I love this camera!
I bought the camera to watch my puppy while I'm at work and it works like a charm. I can see a little bit in the dark but not much. I also appreciate that you can talk through it. The motion detection feature also gave me piece of mind while I was on vacation.
