

Silverlon Face Mask

A silver-plated reusable face mask for personal protection

SILVERLON[®]

PERFORMANCE. POWER. SPEED.

888.508.2872

www.silverlonfacemask.com

The Silverlon Face Mask uses pure silver to make every surface antimicrobial, killing pathogens and providing a layer of antimicrobial protection. Silverlon has been used around the world for years as an antimicrobial dressing for burns, wounds, surgery and vascular access sites. For the first time, this fabric is available in a reusable face mask.

- Every fiber is plated with 99.99% pure silver, so every surface is antimicrobial
- Silverlon kills many dangerous pathogens in the fabric, including MRSA*
- Made in the USA

*DISCLAIMER

The Argentum Medical Silverlon™ Face Mask has not been FDA cleared or approved. The face mask has been authorized by FDA under an Emergency Use Authorization (EUA) dated April 24, 2020 for use as a source control face mask by the general public and healthcare providers in healthcare settings to help prevent the spread of infection or illness during the COVID-19 pandemic. This face mask is authorized only for the duration of the declaration that circumstances exist justifying the authorization of the emergency use of medical devices during the COVID-19 pandemic.

The masks are not intended as personal protective equipment (PPE) for healthcare providers in clinical settings where the infection risk level is high (e.g., high inhalation exposure or aerosol-generating procedures), do not provide liquid barrier protection, and are not substitutes for filtering face piece respirators or surgical face masks. While the Silverlon™ material has inherent antimicrobial properties, Argentum Medical makes no representation that the Face Mask offers antimicrobial or antiviral protection or infection reduction or prevention against the COVID-19 virus.
