SC-2H

Carton Style

Designed to Perform

With a variety of attachments and options, the SC-2H can be fitted to accommodate many styles and types of product. With heavy-duty line shafting and an AC variable frequency drive, the machine speed can be adjusted to suit a variety of different products. The carton flights are fitted with Switchback Group's no-scratch flight carrying system. This system protects the finish of the carton during conveyance. An interlocked detent overload clutch protects the machine in the event of a jam. Attachments include Deboss Coding; Laser or Inkjet; Powered Carton Magazine to mention a few.

For further information, call one of our qualified salespersons or equipment representatives and let us put together a plan to get your company started in the direction of quality and performance.
