

# Credit Risk Transfer Data Intelligence Portal

Freddie Mac CRT Clarity<sup>SM</sup> gives you visibility into Freddie Mac Credit Risk Transfer. This tool gives you a wide range of possibilities for organizing, viewing and working with Freddie Mac CRT data. Use preconfigured ClariFilters to examine Origination and Performance characteristics, and easily export and download data to your desktop.

## Origination

View and compare key credit characteristics.

## Performance

View and analyze delinquency, transition rates, and loss data.

## Proxy Cohort

View historical cumulative loss by vintage, weighted by the FICO and OLTV/ELTV cohorts for a given transaction.
