SUPER Self-Assessment BRONZE Level

Thank you for taking the first step in becoming SUPER Certified!

This Self-Assessment will prompt you to examine the use of single-use plastics at your office.

Single-Use Plastics (or "Plastics" for the purposes of this assessment) are any plastics that you dispose of after use. Often times, when plastic is used as packaging or a vessel for the item you are purchasing, it falls into the single-use plastic category.

The timeframe of use can be short, like a Plastic Water Bottle, or long, like a Plastic Shampoo Bottle or ink cartridge. In these cases, once the liquid is gone, the plastic container is tossed. Even though shampoo or ink may be used for months before emptying, the container is still considered single-use plastic since it is not designed to be refilled.

If you are unsure if an item you use at the office falls into the single-use plastic category, you can make a note in the "Additional Information" section or contact your SUPER representative.

If there are single-use plastic items that you don't know how to reduce or eliminate, please make a note in the "Additional Information" section and we will help you come up with solutions.

Once the Assessment is completed, your submission will be analyzed by the SUPER team and your SUPER rating will be calculated. You will receive information about your SUPER rating and next steps from the SUPER team.
