New England

Situated on the border of Rhode Island and Massachusetts, our EPIC HQ offers a strategic and creative hub for our client partners to collaborate with our team on innovative brand solutions. Our “Work, Think and Play” space has a mix of open floor plans, private offices and a conference center with seven large meeting rooms and a flex-space auditorium. It houses two video/photography studios with a 23-foot cyclorama, multiple video editing suites and animation stations. In the center of the complex sits our 1,200-square-foot “Club House,” an employee breakroom by day, bar by night and television cooking show set on occasion. Adjacent to the space will be our future outside “oasis” for relaxing and entertaining.
