Socialize on video like in real life

Don't get stuck in one room. Use Sidebar to break off, move around, and talk with whomever you like.

GET EARLY ACCESS

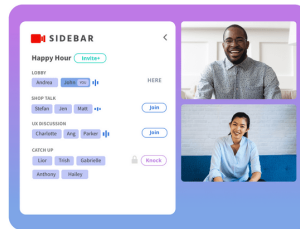

For companies, communities, and friends

Sidebar lets you host fun, informal gatherings, whether for 20 people or 200. Try it for happy hours, networking events, community get-togethers, or to hang out with friends and meet new people.

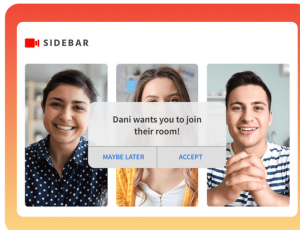

Multiple conversations

Create a room and start a conversation. Hosts can pre-create rooms around desired topics. Keep a room open for anyone to join, or lock it for private chats.

Meet people organically

Hop in and out of conversations, running into friends and strangers. Get someone's attention with a wave or invite them to chat.

Join with a link. No downloads.

Sidebar is powered by WebRTC to create powerful, secure video chat right in your browser, on any device.

Use Sidebar for group gatherings of any size
