SureStop, Easy Reach Brakes

With SureStop, there's only one brake lever, so your kid can't get confused when things happen fast. Our patented brakes won't ever flip the bike, and the lever is in just the right place for kid-size hands.

Lightweight Design

The Guardian Ethos has a lightweight steel frame, making it easy to control while still durable enough to outlast your kid. Like every Guardian bike, it's kid-tested to be safe and fun to ride.

Eye Candy Decals

Our bike colors and designs were developed by kids, for kids, to make our bikes the coolest bikes on the block. Our Guardian Ethos line uses water-transfer decals with a clear coat finish, giving the whole bike a polished shine.

Kid-specific Geometry

Kids don't just need smaller bikes. They need *different* bikes. With all the right proportions. They need smaller grips. They need less distance between the pedals. They need shorter crank arms and a low center of gravity. All Guardian bikes are designed for kids, from the ground up.

need shorter crank arms and a low center of gravity. All Guardian bikes are designed for kids, from the ground up.

Low Step-over Height

The low cross bar makes our bikes easy to get on, and a lot safer if your kid comes off their seat in a hurry.

Standard Shifting

Our grip-shift components are simple and intuitive. Shift one way for higher gears, and the other way for lower. Easy, with plenty of range for even the toughest hills.

intuitive. Shift one way for higher gears, and the other way for lower. Easy, with plenty of range for even the toughest hills.

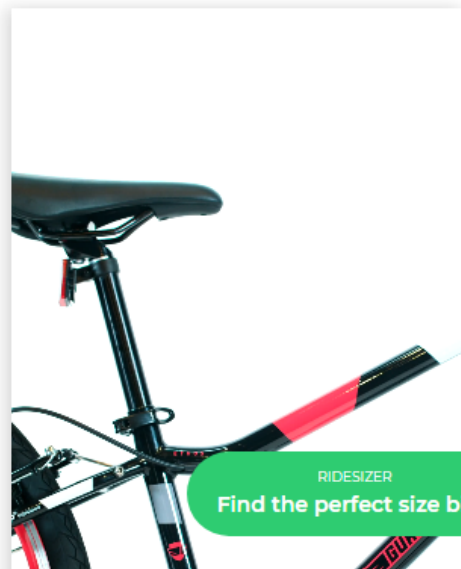

Double-walled Rims

Our double-walled rims can stand up to the extreme beating of a kids' bike without bends, dents, or buckles. Even under the weight of a grown man. We tested it. A bunch of times.

Adjustable Seat

Every Guardian bike seat is both easily adjustable and easy to lock down. You can adjust the height to fit your kid as they grow up with the bike.

Adjustable Seat

Every Guardian bike seat is both easily adjustable and easy to lock down. You can adjust the height to fit your kid as they grow up with the bike.

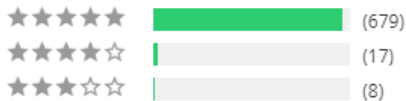

Fully Tuned Delivery

At Guardian Bikes, we assemble most of your bike before we ship it, putting it through a rigorous 34-point safety check before it goes out the door. The only things left to add take about 10 minutes, and we'll send the only tools you need right in the box.

★★★★★ **Great Bikes!**

We've enjoyed watching our 4 year old twins transition seamlessly from their balance bikes to the Ethos 16" bike! :)

★★★★★ **Grandsons big boy bike**

From the first time I clicked the sight, I had no problems. Confident in the sizing and ordered it. When I called customer service, they were kind, friendly, helpful, and answered all my questions.

★★★★★ 20 Inch Small Ethos Bike

It was great! We used the online fit tool, and the bike is perfect! It arrived quickly, was easy to assemble, and my daughter loves it!

★★★★★ The best kids bike on the market

The bike comes practically put together, and whatever is left to assemble is extremely easy with their video instructions. The bike is solid, the brake technology is incredible and I've never felt more at ease watching my son zip through the neighborhood. All our research paid off! Must have kids bike!!

★★★★★ Amazing product!

Purchase experience was perfect (very quick response on product delivery question), delivery was less than 5 days even with COVID demand. Setup was 5 minutes and my 4 yr old was cruising immediately. She performed so much better IMMEDIATELY due to the simple effective No coaster brake system. So happy I found Guardian Bikes! I will be back next year for a bigger one!

Confident, Comfortable, Fast, an...

16 Inch Ethos Bike

We tried other bikes but when we stumbled upon the Guardian bike, we found one that made our 3 year old feel confident, comfortable, fast, and importantly for his parents, safe. When he outgrows this one, we will be getting...

Great bike

20 Inch Small Original Bike

Arrived on time. Easy to put together. Son loves it. My smaller than average 5 yr old has the small 20 inch and it fits him perfectly. It is light and so he conquers hills more easily than with his...
